

REMARKS

This responds to the Office Action dated May 15, 2007.

No claims are amended, no claims are canceled, and claim 36 is added; as a result, claims 1-36 remain pending in this application, of which claims 30-32 are withdrawn.

Claim 36 is based on claim 20.

§102 Rejection of the Claims

Claims 1, 3, 4, 8, 12, 13, 21-24, 26, 28, and 29 were rejected under 35 USC § 102(e) as being anticipated by Tabatabaei (U.S. 6,784,740).

Applicant respectfully traverses the rejection and submits that *prima facie* anticipation has not been established. Applicant is unable to find, in Tabatabaei, a disclosure of all elements recited in the claims. For example, Applicant is unable to find a disclosure of a first reference potential, as recited or similarly incorporated in each of these claims. Page 2 of the Office Action refers to selected portions of Tabatabaei however none of these portions of the cited document appear to disclose a first reference potential. As another example, Applicant is unable to find a disclosure of a second reference potential, as recited or similarly incorporated in claims 1, 3, 4, 8, 12, 13, 21-24, and 29. Page 3 of the Office Action refers to selected portions of Tabatabaei however none of these portions of the cited document appear to disclose a second reference potential.

Accordingly, Applicant respectfully requests withdrawal of this rejection.

§103 Rejection of the Claims

Claims 7, 11, 14, 15, 18, and 19 were rejected under 35 USC § 103(a) as being unpatentable over Tabatabaei (U.S. 6,784,740).

Applicant respectfully traverses this rejection on the grounds that no *prima facie* case of obviousness presently exists with respect to these claims because all elements are not present in Tabatabaei for the reasons discussed above with respect to the § 102 rejection.

Accordingly, Applicant respectfully requests withdrawal of this rejection.

Claim 5 was rejected under 35 USC § 103(a) as being unpatentable over Tabatabaei (U.S. 6,784,740) in view of Buchanan et al. (U.S. 4,550,342).

Applicant respectfully traverses this rejection on the grounds that no *prima facie* case of obviousness presently exists with respect to these claims because all elements are not present in Tabatabaei for the reasons discussed above with respect to the § 102 rejection. The proposed addition of Buchanan to Tabatabaei does not appear to cure the shortcomings noted above.

Accordingly, Applicant respectfully requests withdrawal of this rejection.

Claims 6, 9, 10, 16, and 17 were rejected under 35 USC § 103(a) as being unpatentable over Tabatabaei (U.S. 6,784,740) in view of Takahashi et al. (U.S. 2003/0128558).

Applicant respectfully traverses this rejection on the grounds that no *prima facie* case of obviousness presently exists with respect to these claims because all elements are not present in Tabatabaei for the reasons discussed above with respect to the § 102 rejection. The proposed addition of Takahashi to Tabatabaei does not appear to cure the shortcomings noted above.

Accordingly, Applicant respectfully requests withdrawal of this rejection.

Claims 2, 25, and 27 were rejected under 35 USC § 103(a) as being unpatentable over Tabatabaei (U.S. 6,784,740) in view of Khorram et al. (U.S. 2004/0190650) and further in view of Karsh et al. (U.S. 4,641,324).

Applicant respectfully traverses this rejection on the grounds that no *prima facie* case of obviousness presently exists with respect to these claims because all elements are not present in Tabatabaei for the reasons discussed above with respect to the § 102 rejection. The proposed addition of Khorram and Karsh to Tabatabaei does not appear to cure the shortcomings noted above.

Accordingly, Applicant respectfully requests withdrawal of this rejection.

Claims 33-35 were rejected under 35 USC § 103(a) as being unpatentable over Tabatabaei (U.S. 6,784,740) in view of Chen et al. (U.S. 6,691,203).

Applicant respectfully traverses this rejection on the grounds that no *prima facie* case of obviousness presently exists with respect to these claims because all elements are not present in

Tabatabaei for the reasons discussed above with respect to the § 102 rejection. The proposed addition of Chen to Tabatabaei does not appear to cure the shortcomings noted above.

Accordingly, Applicant respectfully requests withdrawal of this rejection.

Allowable Subject Matter

Claim 20 was objected to as being dependent upon a rejected base claim, but were indicated to be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

New claim 36 is based on claim 20 and is believed to be in condition for allowance.

Applicant reserves all rights to pursue any cancelled claims in a subsequent patent application claiming the benefit of priority of the present patent application, and to request rejoinder of any withdrawn claim, as required by MPEP § 821.04.

CONCLUSION

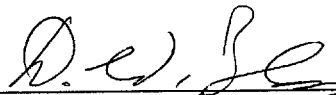

Applicant respectfully submits that the claims are in condition for allowance and notification to that effect is earnestly requested. The Examiner is invited to telephone Applicant's attorney ((612) 373-6911) to facilitate prosecution of this application.
